plastic parts**

# Korad<sup>®</sup>

## Weatherable Acrylic Film

### Colorful, weather-resistant protection for formed parts

With Korad<sup>®</sup> films, surfaces maintain an original, like-new appearance even in harsh environments where there is long-term exposure to UV light, moisture or extreme temperatures.

- Printable, paintable and bondable
- Long-term color and gloss stability during outdoor exposure
- Outstanding UV protection
- Fade resistance for wood grain or other printed patterns
- Available in an expansive palette of colors—standard and custom
- Transparent high gloss, low gloss and ultra-low gloss finishes
- Mildew and fungus resistance for finished parts
- Abrasion protection and detergent resistance

Korad<sup>®</sup> is the preferred surfacing film for ABS, HIPS, PVC, PMMA, PC, ASA
